

NGHIEM TRONG QUOC ANH

DevOps Intern | AWS · Kubernetes · CI/CD

Hanoi, Vietnam | (+84) 327 252 932 | ngkiemquocanh1507@gmail.com
github.com/QuocAnhNghiem | linkedin.com/in/quốc-anh-nghiêm-068270290

SUMMARY

Information & Communication Technology undergraduate specializing in DevOps, with hands-on experience designing and operating production-like platforms on **AWS EKS** and **Docker Swarm**. Built **Jenkins CI/CD** pipelines, secure non-root containers, and CloudWatch/Prometheus observability. Seeking a DevOps Internship to contribute cloud automation, Kubernetes, and troubleshooting skills.

EDUCATION

University of Science and Technology of Hanoi (USTH)

Hanoi, Vietnam

B.Sc. in Information and Communication Technology

2023–2027

GPA: 16.37/20 | Expected Graduation: 2027

- **Merit Scholarship** recipient for three consecutive years (2023–2025).
- Ranked **20th university-wide** across all majors in USTH's 2026 Vallet Scholarship selection.

PROJECTS

GPA Management Platform — AWS EKS & Jenkins CI/CD

2026

github.com/QuocAnhNghiem/gpa-management · Live Demo: app.ngkiemquocanh.me

- Designed **isolated staging and production** environments on a shared AWS/EKS platform (2 AZs, private worker subnets). Served the React frontend via **private S3 + CloudFront OAC** behind **AWS WAF**, and exposed APIs through dedicated ALBs via **Kubernetes Gateway API/HTTPRoute**, with MongoDB Atlas as the managed database.
- Deployed and operated a production-like backend on **Amazon EKS** using isolated staging/production namespaces, 3 production replicas, readiness/liveness probes, resource requests and limits, maxUnavailable=0 rolling updates, a PodDisruptionBudget, and **HPA scaling from 3 to 6 pods at 65% target CPU**.
- Built an end-to-end **Jenkins** pipeline covering backend tests, frontend build, Docker image build, **Trivy scanning**, ECR push, **manual production approval**, EKS deployment, S3/CloudFront delivery, and smoke testing; enforced staging → staging and main → production branch guards.
- **Eliminated static AWS credentials** via EKS Pod Identity (app workloads) and an EC2 IAM role for Jenkins; applied non-root containers, private S3 with presigned uploads, least-privilege IAM, and Git SHA-based image tags.
- Implemented centralized observability with **CloudWatch Container Insights**, Fluent Bit, CloudWatch Logs Insights, and a production dashboard tracking pod CPU/memory, restarts, ALB 4xx/5xx and latency, and CloudFront errors.

MERN CI/CD & Monitoring Platform | Docker Swarm, Jenkins, GCP

2026

github.com/QuocAnhNghiem/CICD-mern-monitoring

- Automated an **8-stage Jenkins CI/CD pipeline** triggered by GitHub webhooks, reducing end-to-end deployment time by **~68% (from 20 to 6.5 minutes)** through automated tests, Docker builds, **Trivy security gates**, Harbor pushes, Swarm deployment, and health verification.
- Designed production-like **Docker Swarm** stacks (two frontend and two backend replicas) with **start-first rolling updates**, automatic failure rollback, health checks, resource limits, Docker Secrets, and hardened non-root images.
- Developed a parameterized staging workflow using **Jenkins Active Choices**, supporting selective frontend/backend deployment, environment start/stop controls, and controlled rollback to versioned Harbor images.
- Deployed **Prometheus and Grafana** monitoring with Node Exporter and cAdvisor; diagnosed and documented the root cause of a **Docker Engine 29 / cAdvisor incompatibility** that caused missing Swarm container labels.

TECHNICAL SKILLS

Operating System: Linux (Ubuntu)

Containerization & Orchestration: Docker, Docker Swarm, Kubernetes, Amazon EKS

CI/CD & Registry: Jenkins, Amazon ECR, Harbor

Cloud: AWS (EC2, EKS, S3, CloudFront, IAM, ALB, Route 53), GCP (Compute Engine)

Monitoring & Logging: Prometheus, Grafana, Amazon CloudWatch, Fluent Bit

Networking & Version Control: Networking Fundamentals, Git

Programming & Scripting: Bash, JavaScript, Python

CERTIFICATION

DevOps for Freshers — DevOpsEdu.vn

June 2026

LANGUAGES

English: B2 (CEFR) — academic and technical working proficiency

French: A2
